TOWN WARRANT

THE STATE OF NEW HAMPSHIRE.

*To the Inhabitants of the Town of Fremont, in the County
of Rockingham, in said State, qualified to vote in Town
Affairs:*

[L. S.]

You are hereby notified to meet at the Town Hall in said Fremont on Tuesday, the eleventh day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary for the following purposes and make appropriations of the same; to defray town charges, for support of town poor, for repairs of highways and bridges, for street lighting, for care of cemeteries, for the public library and for Memorial Day.
3. To raise and appropriate a sum of money necessary to secure State Aid for the construction of permanent improved highways.
4. To raise and appropriate such sums of money as may be necessary to secure State Aid for maintenance of Trunk Line and State Aid highways.
5. To raise and appropriate a sum of money for repairs to the "Old Meeting House," so called.

6. To raise and appropriate a sum of money for the making of an Assessors Survey and Mapping of the Town.

7. To raise and appropriate a sum of money to install means of bringing water into the Town Hall kitchen and re-locate toilet if necessary.

8. To bring in your ballots for one delegate to the Constitutional Convention.

9. To receive report of selectmen in accordance with the vote taken at the March meeting of 1927 in respect to Town qualifying under the will of the late Aaron J. Robinson.

10. To see if the Town will vote to accept the pump installed within the Village Cemetery by Albert B. Blaisdell at his expense.

11. To receive the report of the committee appointed at the last Town Meeting in regard to purchasing a road machine and take any action deemed necessary thereon.

12. To transact any other business that may legally come before the meeting.

Given under our hands and seal, this twenty-fourth day of February, in the year of our Lord nineteen hundred and thirty.

ERNEST S. BEEDE,
 LYMAN S. HOOKE,
 GEORGE A. BASSETT,
Selectmen of Fremont.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Fremont:

I herewith submit my third annual report as superintendent of schools.

In this report I shall deal briefly with the eight tables which follow it.

Table I gives the names and training of your teachers. You will note from comparison of this list with that of the year before that there were no changes in the teaching personnel. This is indeed gratifying in that the interruption in learning for some children caused by constant changes of teachers is not existent this year. The total of experience now is 20 years. This points to an increase in teaching strength, as every added year of experience tends to bring this about.

Table II contains the school calendar for the present year. It is included to help answer questions which may arise with regard to vacations and other matters of similar interest.

Table III shows the names of the pupils having perfect attendance for the year 1928-29. The parent's name is given as well because often the incentive for such good attendance rests with the parent. This is a remarkably large list and one in which we take considerable pride. It is by far the largest list in this Supervisory Union.

The next two tables deal with the important problem of eighth grade graduation and high school attendance. It is pleasing to me to call to your attention this rather imposing group. This list of high school people calls to mind an increased cost for the time being but cost can never measure its ultimate value to Fremont, to the state, and to the Nation. The sum total of human happiness and individual worth shall have been increased over and above financial cost by virtue of their attendance at high school.

Table VI lists the pupils who may enter school next Fall. There may be others who have moved in since the census was taken or who shall have reached the age named by September 1, 1930.

The next table gives the results of the physical examination of the children and the follow-up activities of the school nurse. A careful reading of this table will show the highly important duties which she is performing for you. "A sound mind in a sound body" is often heard. You are to be congratulated upon your decision to see this aim accomplished.

The last table deals with a variety of items as revealed by a summary of the registers for each school. There has been a slight increase in total enrollment. I am of the opinion that this is something which you may not expect every year. The stable enrollment should be between 100 and 110, judging by the figures for this year in comparison with those of other years. The number of half-days lost per pupil shows an increase. This occurs in spite of the large list of pupils with perfect attendance. This would indicate that not all are assisting to keep up the attendance records. An examination of the registers bears evidence of this fact, for we find a number of cases of absence for reasons such as, away with parent, work at home, rain, snow, and no reason. I am sure that there should be no excuse for absence from school save illness. Let us co-operate to remove these undesirable excuses from our schools. Our tardiness campaign is bearing fruit. Note the very considerable cut in the figures for 1928-29 as compared with the other years. Our goal has been reached, namely 1.1 cases per pupil, which is the state average. We should not release our vigilance, because we believe it is poor civic training to allow a child to be late for school. Table VIII offers an opportunity to make comparisons of the attendance results for the three years.

With keen appreciation of your loyal interest and generous support, I respectfully submit this report.

HAROLD C. BOWLEY,

Epping, N. H., Feb. 10, 1930. *Superintendent of Schools.*

(Co-operative with State Board of Health.)

The fundamentals of the health program in the school curriculum are: that the pupils should be aware of the health habits necessary in order to develop resistance to disease and to maintain vigor, and good feeling in every day life.

The health teaching consists of health talks on nutrition, posture, sanitation, and the body in general. Health projects are most helpful in emphasizing these talks and are used extensively.

A daily morning inspection regarding cleanliness and general appearance is conditioned in each school by the teacher or by chosen pupils known as health monitors.

During the year each pupil has had a thorough physical examination; parents informed of the defects found; and

follow-up visits have accomplished much in making this examination most beneficial.

The first term a toxin-antitoxin clinic was conducted with 69 pupils in attendance. By co-operating with the State Board of Health we were able to secure the excellent services of Dr. Weaver of Manchester. The object of this clinic was to protect these children from diphtheria.

Continuous contact with each pupil in school and in home life has done much in both preventing and spreading contagious disease.

Many thanks are due the parents and teachers for their co-operation in the health education of all pupils.

CONSTANCE COOPER, R. N.
